Applicant's after final amendment, filed 24 August 2004, places independent claims 1, 10, 13, 21, and 28 and all claims dependent thereof in condition for allowance and are hereby entered.

Allowable Subject Matter

Claims 1-5, 8-14, 16-24, and 26-28 are allowed.

Claims 6, 7, 15, and 25 are cancelled.

The following is an examiner's statement of reasons for allowance:

The telephonic interviews, held on August 17-19, 2004 with the applicant's representative, concluded in agreement that the limitations directed toward *adjusting a step size of an integrator* were not taught by the prior art of record. Instead, the prior art reference Zhou (US Patent 5,583,934) simply discloses an integrator that adjusts the direction of its step size, but maintains a constant interval of ± 0.2 (see figure 4, block 408).

Because these limitations have been incorporated into the independent claims, all independent claims and their respective dependent claims are allowable over the prior art of record.

Furthermore, all claims dependent on the allowed independent claims are allowable for the same reasons.

Further summary is presented in the applicant's after final amendment on pages 11-12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
